### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to the following:

11. (currently amended): A polymerizable composition comprising:

- (1) a compound for generating a radical using light or heat;
- (2) a polymerizable compound; and
- (3) an infrared absorber, wherein;

the molecular weight of the compound (1) generating a radical is at least 1,000 and no more than 50,000,;

wherein the radical generating compound (1) comprises a macromolecular compound, which includes, at a side chain thereof, a structure represented by the following general formula (I).

$ZM^+$

General formula (I)

wherein Z<sup>+</sup> represents COCOO<sup>+</sup>, COO<sup>+</sup>, SO<sub>3</sub><sup>+</sup> or SO<sub>3</sub>-N<sup>+</sup>-R where R represents a monovalent organic group and M<sup>+</sup> represents an onium cation.

The claimed invention finds novelty in the presence of the recited macromolecular compound in the polymerizable composition. None of the prior art references anticipate or render obvious the claims. Applicants by amending the independent claim and inserting the limitations of claim 12 into claim 11 have complied with the request by the Office to advance prosecution.

Accordingly, claims 11, and 13-18 are seen as allowable and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
